KENDRA MULLIGAN

PROJECTS

DESSERT ORDERING APP
Built to enhance my skill set with React. App can add and delete order quantities, tally cart total, and place a dummy order.

WEBTUBE
Project was built as a clone of YouTube. Built with React context for the sidebar functionality, and utilized Tailwind CSS and Typescript for the rest of the build.

KEY ACHIEVEMENTS

LEAD FULL SCALE LEGACY CODE MIGRATION
Built a new website to shift from old legacy code to new code base which resulted in a 20% lead engagement increase for the brand.

STREAMLINED DEPLOYMENT PROCESSES
Assisted in the implementation of Github CI/CD pipelines to enhance developer updates, code reviews, and decrease deployment times.
